

ALEXANDER VANCE

Senior PostgreSQL & Full Stack Engineer | alexander.vance@example.com | +1 (555) 019-2834 | San Francisco, CA

PROFESSIONAL SUMMARY

Accomplished Database Architect and Full Stack Engineer with 5+ years of experience engineering high-throughput relational systems, in-database PL/pgSQL stored procedures, query optimization, and resilient TypeScript backend APIs.

TECHNICAL SKILLS

Core Skills: PostgreSQL, SQL, Python, TypeScript, Node.js, React, Docker, Redis, Git, PL/pgSQL, Database Normalization

Specializations: Query Execution Planning, Composite Indexing, Transactional Concurrency, AI Integration

WORK EXPERIENCE

Lead Database Architect - CloudScale Systems, Inc.

2023 - Present | 3 Years

- Architected high-performance PostgreSQL databases, indexing strategies, and automated partitioning.
- Authored custom PL/pgSQL table-valued functions for real-time candidate and transaction scoring.
- Reduced analytical query execution latency by 45% through EXPLAIN ANALYZE index optimization.

Senior Software Engineer - FinTech Innovations Ltd.

2021 - 2023 | 2 Years

- Developed modular Node.js & TypeScript microservices handling 10M+ daily events.
- Integrated Redis caching layer and transactional atomic stored procedures with zero data inconsistency.

EDUCATION

Master of Science in Computer Science

Stanford University | 2019 - 2021

Specialization in Distributed Systems and Relational Database Management Systems.

Bachelor of Science in Computer Engineering

UC Berkeley | 2015 - 2019

PROJECTS & CERTIFICATIONS

AI-Powered Resume Skill Matcher

- Designed an in-database PostgreSQL table-valued function using 70% Skill + 30% Experience weighting.
- Built automated trigger-based audit pipelines and REST APIs connecting React frontend to PostgreSQL.

Certifications: PostgreSQL Certified Professional (PCP), AWS Certified Solutions Architect - Associate
